

Dryland agriculture and agroforestry as research priorities in Indian agriculture

Looking back on two decades of programme
implementation

Prof. Dr. B.K. Ramachandrappa, AICRP for Dryland Agriculture

Prof. Dr. Nagaraju, AICRP on Agroforestry

University of Agricultural Sciences, Bangalore

All-India Coordinated Research Projects (AICRP) are a national initiative of the Indian Council of Agricultural Research for promoting productivity and resilience of Indian crops and cropping systems. Dr. Ramachandrappa and Dr. Nagaraju have contributed to this programme with experimental work carried out at the University of Agricultural Sciences in Bangalore, and in cooperation with local farmers. They will present an overview on the targets, achievements, and future perspectives in their research area, illustrated with examples from their rich experience. The scope and potentials of regional, national, and international scientific collaboration will be discussed. – Both speakers are partner project leaders in FOR2432 and collaborators in the on-station experiments of the Indo-German Research Unit.

Date: 07.04.2017

Time: 09:15 – 11:30

Venue: Seminarraum im Tropengewächshaus
FB11 Ökologische Agrarwissenschaften
Witzenhausen, Steinstrasse 19
