How to find us

The Human-Machine Systems Engineering group is located at the Campus Holländischer Platz in the Mönchebergstraße to which the stretched building Ingenieurwissenschaften III (with orange window and door frames) is parallel. Circa in the middle of the building you find the side entrance with the house number 7. In the building turn left in the first floor (after about 30 metres) and find after passing a glass door the entrance 1600 to the rooms of the group.

Arriving by public transport

You will find a taxi rank and a tram stop in front of the ICE-Station Kassel-Wilhelmshöhe. The tramline 3 or 7 (direction Ihringshäuser Straße) is to the stop "Katzensprung" without change. You can also take line 1 (direction Vellmar) to the stop "Holländischer Platz/Universität" and then walk over the campus (time of travel from station Kassel-Wilhelmshöhe nearly 20 minutes each).

Arriving by car

From direction Hannover or Frankfurt exit A7 at Kassel-Nord and follow the signs to "Universität Standort Holländischer Platz". When coming from the west exit A44 at Warburg, then left direction to Warburg and follow after about 3 kilometres right the B7 via Warburg to Kassel to Holländischer Platz. Chargeable parking places are available in the Mönchebergstraße and other streets around the campus.
