International DAAD-Alumni Summer School 2009

“Poverty and Social Inequality in Education and its Impact on
Sustainable Development”

OUR CONCEPT

ARE YOU...

... interested in meeting inspiring people?

.... looking forward to exchange your ideas and thoughts?

... eager to make a positive change in your society?

Therefore WE WELCOME YOU to the International DAAD-Alumni Summer School "Poverty and Social Inequality in Education and its Impact on Sustainable Development".

Let us explore together the potential we have to shape the future in our fields!

At the summer school conference we are working together as young professionals and experts in our fields to bring together our experiences, our ideas and start to build and shape the future in our fields.

We are looking forward to discuss with you social inequality in the context of sustainable development. We feel it is a great chance to have experts in this field coming from three different continents. Our goal is to work in a constructive way with the potential that comes together for one complete week.

The results of our conference will be presented at the UNESCO World Conference on Education for Sustainable Development in Bonn.

Therefore the conference design offers space for the participants to proactively participate. We want you to share your ideas, bring in your expertise and experiences and network with each other. This means as well, that we all are responsible for the success of the conference flow. You have the chance to bring in your perspectives and discuss them within the group to make this conference a great success for everyone.

Various speakers bring in new perspectives and inspirations for all of us. We want to create a dialogue enabling us to understand different perspectives, similarities and differences. We plan to use this input and knowledge to develop visions for a sustainable future as well as planning next steps for common actions.
