#### **\* Comment concerning the lack of grade on my Dutch Ph.D. thesis**

The quality of a Dutch dissertation corresponds to the quality of the reading  
committee. In my case, an outstanding international reading committee unanimously  
accepted my manuscript as a Ph.D.-thesis. Its members were:

- Jane Falkingham, Professor of Demography and International Social Policy at the  
University of Southampton and Director of the Economic and Social Research Council  
(ESRC) at LSE, London;

- Anton Hemerijk, Professor of Economics at the Erasmus University Rotterdam and  
Director of the Dutch Academic Council for Governance (WRR);

- Stephan Lessenich, Professor of Comparative Analysis of Societies and Culture, Institute of Sociology, Jena University;
- Martin Kohli, Professor of Sociology at the European University Institute (EUI), Florence;
- Paul Schnabel, University Professor at Utrecht University and Director of the Social and Cultural Planning Office of the Netherlands (SCP).
