

Qualifikationsmodul Literaturwissenschaft (BA module 11)

Schriftliche Ausarbeitung

BA students completing their ‘Qualifikationsmodul’ in literary studies have to hand in a ‘schriftliche Ausarbeitung’ in order to obtain credit (‘Studienleistung’) for their ‘Proseminar’.

What are the basic guidelines for this assignment?

- You are expected to analyse one of the literary texts discussed in your Proseminar on approx. six pages.
- Your analysis has to refer to at least one critical source or theory related to the literary text in question. You are supposed to show how a theoretical concept or approach is able to highlight important aspects of the text.
- You have to support your argument by close readings of relevant passages of the literary text.
- You do not obtain a grade for this assignment, only a ‘pass’ (or ‘fail’).
- Please provide a cover page, but no table of contents.
- Please add a declaration of academic honesty (as in a research paper).
- Please consult GARP for questions of layout and citation.
