

# Polycentricity Network Webinar Series

## Network Polycentricity Research in Watershed Action Situations

*Webinar Series on Polycentric Governance*

10 June 2021 @ 17:00 CET (UCT+1)

The Polycentricity Webinar Series aims to introduce and discuss key concepts in the field of polycentric governance, as well as to address current applications and future research directions. In this series, we aim to facilitate the dialogue between early career scholars, senior researchers, and practitioners who are interested in learning, better understanding as well as debating foundational and new ideas in polycentric governance.

### About the Speaker

#### Nelson Jatel, PAg

Nelson serves as the Water Stewardship Director at the [Okanagan Basin Water Board](#) with over 20 years of senior change-management experience. He holds a science degree (UBC) in freshwater science, a Master's degree (UBC) in water governance, and is a Doctoral candidate (RRU) researching watershed governance and social-ecological systems.

Nelson has taught water law at Okanagan College and was the Executive Director of the Okanagan Partnership Society – a business led non-profit focused on collaboration and practical solutions to support a globally competitive Okanagan.

Nelson is president of Limnology Research Corp. (2001) and serves as a director on a variety of Boards including: St'at'imc Eco Resources Board, Royal Canadian Marine Search and Rescue, UBC Alumni and Okanagan College - Water Engineering Technology Program.

Nelson is a certified fishing guide ([desertsalmon.ca](#)) and enjoys spending time on their family vineyard in Naramata.
