

Department of Organic Food Quality

Elective module: IO3 Food quality and organic food processing

Time: Wednesdays, 14.15h – 19.00h

Location: H13, Steinstraße campus

Dates: 12.04.2023 – 12.07.2023

Content:

- The lectures presents different perspectives on organic food quality. The influencing factors along the value adding chain „from farm to fork“ will be discussed for selected foods.
- You will learn to characterize these factors during farming and processing and identify critical control points where quality losses can occur.
- Visits to food manufactures will help to deepen the understanding of processes, measurements, and regulations.
- Students will be organized into groups of four and each group will present a quality assessment based on lecture content for one food example.

Details of the course will be discussed on 12 April 2023. Enrollment is organized through e-campus.
