

Organic agriculture in Europe

Master module (online in English, 4 ECTS) – Winter semester 2026/27

You look for deep and actual insights into European organic agriculture and into the individual situation, frames and challenges to enlarge the organic sector in different European countries?

Learn and interact weekly on live stream together with university experts from ENOAT (European Network of Organic Agricultural Teachers) and master students from several European countries!

The module is officially accredited and coordinated by the Faculty of Organic Agricultural Sciences, University of Kassel-Witzenhausen, Germany. There are no fees.

Prerequisites: Bachelor degree in Agriculture, advanced English language knowledge

Time: every Thursday from 3.00 pm – 6.15 pm online via Zoom
Start: October 22nd, end: January 14th

Registration and information between September 1st – Oktober 4th:

Holger Mittelstraß, University of Kassel-Witzenhausen
