According to the manufacturer, the binding agent is suitable for Heating oil, hydraulic oil, engine oil, all oil-like substances, lubricants, petrol and fuels, herbicides and pesticides, emulsions, paints, solvents, coolants, blood, etc..

Scope of delivery:

- **30-litre clamping ring lid drum**
for collecting and disposing of the saturated binder
- **oil binder**
for absorbing liquid chemicals
- **Plastic shovel** for spreading
- **Sweeping set** (disposable)
- **Disposable nitrile gloves**
- **Disposal documents**

All components are supplied in a clamping ring lid drum and can be stored until needed

Order from: Christina Ebert, Abt VC Arbeitssicherheit und Umweltschutz
Mönchebergstraße 19
E-Mail: chris.ebert@uni-kassel.de

Price: 25,- € (inkl. MwSt.)
Billing takes place via internal rebooking!
Prices for larger quantities of binding agent and 60 or 120 litre clamping ring lid drums on request.

Procedure in the event of an accident:

- Ensure good room ventilation - open windows!
- Spread the liquid-contaminated area with the binding agent (observe personal protection!).
- Pick up the saturated binding agent with a broom and dustpan and place in the drum (use gloves!).
- Place the bucket with the remaining binding agent, broom, dustpan and gloves in the drum and close the drum with the lid. Do not add any other waste materials.
- The drum should not be used for the permanent storage of waste, but should be disposed of promptly.

Disposal of the barrel:

- by e-mail to: arbeitssicherheit@uni-kassel.de
- The following information is required: Contact details, contact person
