

Text&Medien erstellen

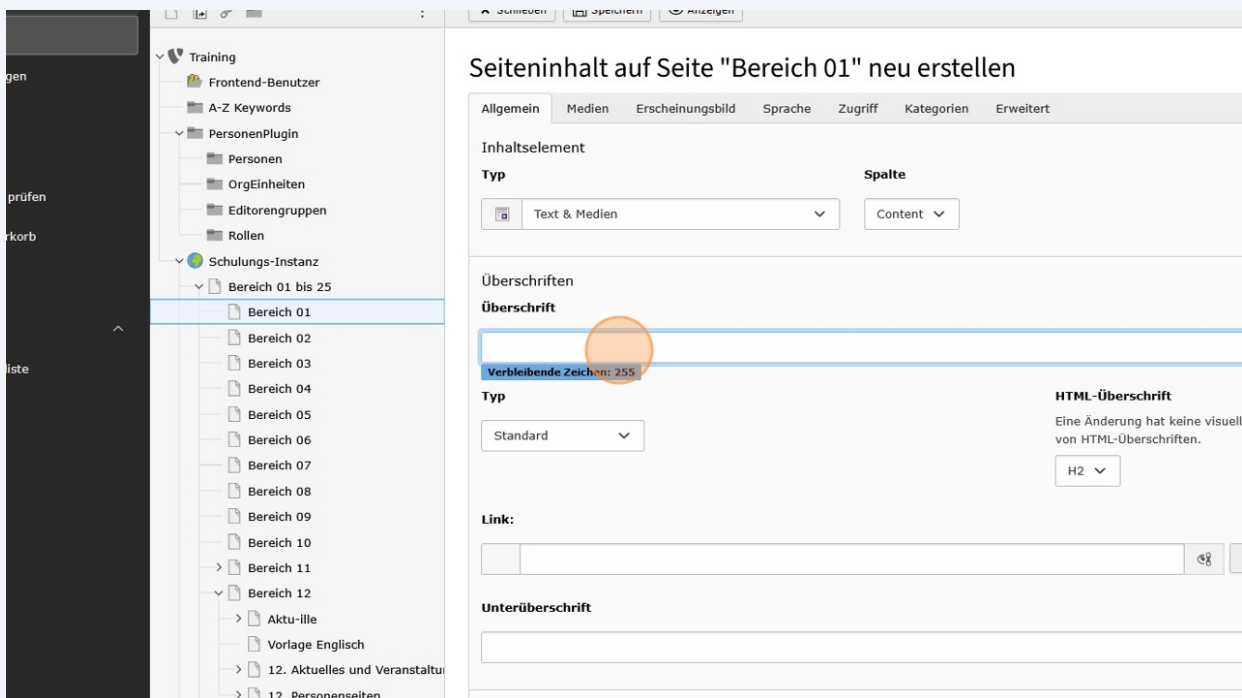

1 Click "Neuen Inhalt erstellen"

2 Click hier

3 Click "Überschrift" vergeben

4 Text einfügen

The screenshot shows a sidebar on the left with a tree view of content. The 'Schulungs-Instanz' (Training Instance) is expanded, showing a list of 'Bereich' (Area) items from 01 to 14. 'Bereich 01' is selected. The main editor area on the right has a title field containing 'Unterüberschrift' and a large text area below it. The text area has a rich text editor toolbar with options for bold, italic, underline, strikethrough, link, unlink, bulleted list, numbered list, indent, outdent, quote, and source code. A large orange circle is centered in the text area, indicating the cursor position for text insertion.

5 Speichern

The screenshot shows the same content management system interface as in step 4, but now the 'Speichern' (Save) button is highlighted with a large orange circle. The main editor area shows the title 'Seiteninhalt auf Seite "Bereich 01" neu erstellen' and the 'Text & Medien' content type selected. The 'Überschrift' (Title) field contains 'Text&Medien Überschrift'. The 'HTML-Überschrift' (HTML Title) field is set to 'H2'. The 'Speichern' button is located in the top right corner of the editor area.
