ISU 

Thinking and acting at the University of Kassel are characterized by open-mindedness towards the problems and challenges in society and nature. Thus, the University of Kassel hosts the International Summer University (ISU), an interdisciplinary academic summer program that targets students from all over the world. The ISU offers interesting seminars focusing on environmental and technological aspects of **Engineering, Architecture, Business and Politics**. Furthermore, **Intercultural Communication, Interactive History and Politics (taught in English or German), and *documenta***, a seminar about the world's largest contemporary art exhibition are considered vital components of the program.

Classes are taught in **English** by high profile faculty members and include field trips and cultural interaction in Kassel. ISU Kassel focuses on highly motivated and qualified students and researchers with an interest in the disciplines offered as well as in the German language and culture.

In addition to the study program, students will

- attend an intensive **German language course** offered at three different levels, including beginners
- earn **up to 9 ECTS credit points** for successful participation in seminars and the language course
- have a German "**Tandem-Language-Partner**" to practice German
- participate in hands-on media and cultural **workshops** (e.g. shooting a video, publishing an online magazine, or learn about contemporary art in Kassel)

- enjoy an exciting **cultural and leisure program** (e.g. trip to Weimar, optional trip to Berlin, city tour in Kassel, hiking to the Herkules monument, BBQ, sports, theater and cinema)
- study during the Kassel semester on a picturesque and lively campus in the heart of the city
- live with **German host families** and meet Kassel students on campus, in cafés and during leisure activities
- practice German through personal contact and learn about everyday life in Germany through first-hand experience

Benefits of the ISU Kassel are manifold, as the program combines high quality education, credit points, priceless personal experiences, and new unforgettable impressions of Germany and Europe. In the geographical center of Germany and the continent, Kassel is a great starting point for a trip around Europe.

The **program fee** includes two seminars (20hrs each), a language course (40hrs), a workshop (8hrs), excursions, a cultural program, accommodation with two meals per day, free public transportation in Kassel, health and liability insurance.

For further information and registration, please contact the ISU Kassel office or check our website.
