The following is a diagram of the expected application process from beginning to end. Please note that we do not accept admissions on a rolling-basis (i.e. application are reviewed and decisions are made as applications are received). Rather, all applications are assessed at the same time. Therefore, final application decisions may be received quite some time after the initial application has been submitted.

In order for your application to be reviewed, the full application packaged should be submitted to the University of Kassel via the online application portal. You can find the link to the portal through the university’s webpage. PLEASE NOTE THAT THE PORTAL WILL ONLY BE OPEN DURING THE APPLICATION PERIOD.

Once received by the university, the Master’s office will forward on qualified applications to the selection panel of the program.

If the Master’s office forwards on your application, the selection panel will then review your application, along with all applications received. Once all applications have been reviewed and a decision has been made on your application, you will be notified.

Because the process between you submitting your application and the selection panel reviewing and making a decision on your application is quiet lengthy, it may take some time before you hear back on your application.

If your application passes the selection panel review, you will be notified by the Masters office of the University of Kassel by email. You should receive an Offer of Admission letter, which states that you can be admitted to the program once you have completed all the steps for enrollment.

The final step of application process, if you have received an admission offer from the university, you will need to complete the steps to enrollment, which the Masters office will inform you of.
